CURRICULUM

1 **Stock Control and Shelf Replenishment** 26 chapters · 135 classes **100 marks**

- **1 Understanding Retail Inventory Systems** — 5 classes
  - 1.1 Exploring the Basics of Retail Inventory Systems
  - 1.2 Analyzing Types and Functions of Inventory
  - 1.3 Identifying Key Components of Inventory Management
  - 1.4 Understanding the Flow of Inventory in Retail
  - 1.5 Applying Inventory Control Techniques
- **2 Inventory Control and Management Techniques** — 5 classes
  - 2.1 Understanding Basic Inventory Concepts
  - 2.2 Exploring Different Inventory Control Systems
  - 2.3 Implementing Stock Management Procedures
  - 2.4 Analyzing Inventory Accuracy Techniques
  - 2.5 Applying Inventory Control Best Practices
- **3 Technology in Inventory Management** — 5 classes
  - 3.1 Understanding Inventory Management Systems
  - 3.2 Exploring Point-of-Sale Technology
  - 3.3 Utilizing Barcodes and RFID in Retail
  - 3.4 Implementing Automation in Stock Control
  - 3.5 Analyzing Data for Inventory Optimization
- **4 Analyzing Inventory Performance and Optimization** — 5 classes
  - 4.1 Understanding Key Inventory Metrics
  - 4.2 Interpreting Inventory Turnover Rates
  - 4.3 Analyzing Stock Levels and Demand Patterns
  - 4.4 Identifying Opportunities for Inventory Optimization
  - 4.5 Implementing Strategies for Inventory Improvement
- **5 Introduction to Retail Inventory Management** — 5 classes
  - 5.1 Understanding Retail Inventory Basics
  - 5.2 Identifying Returnable Items
  - 5.3 Preparing Newspapers for Return
  - 5.4 Preparing Magazines for Return
  - 5.5 Documentation and Reporting Procedures
- **1 Understanding Inventory Fundamentals in Retail** — 5 classes
  - 1.1 Exploring the Basics of Retail Inventory
  - 1.2 Differentiating Types of Inventory in Retail
  - 1.3 Understanding Key Metrics for Inventory Control
  - 1.4 Identifying Common Inventory Challenges in Retail
  - 1.5 Applying Basic Inventory Management Techniques
- **2 Inventory Tracking and Management Systems** — 5 classes
  - 2.1 Understanding Inventory Tracking Systems
  - 2.2 Exploring Inventory Management Software
  - 2.3 Analyzing Data for Inventory Decision Making
  - 2.4 Implementing Real-Time Inventory Monitoring
  - 2.5 Evaluating the Impact of Inventory Systems on Operations
- **3 Forecasting and Demand Planning in Inventory Control** — 5 classes
  - 3.1 Understanding the Basics of Demand Forecasting
  - 3.2 Identifying Key Factors in Demand Planning
  - 3.3 Analyzing Historical Data for Inventory Forecasting
  - 3.4 Applying Quantitative Methods in Demand Prediction
  - 3.5 Developing and Adjusting Forecasting Models
- **4 Optimizing Inventory Performance and Reducing Shrinkage** — 5 classes
  - 4.1 Understanding Inventory Performance Metrics
  - 4.2 Identifying Causes of Inventory Shrinkage
  - 4.3 Implementing Loss Prevention Strategies
  - 4.4 Optimizing Stock Levels for Efficiency
  - 4.5 Evaluating the Impact of Inventory Management Solutions
- **1 Understanding Inventory Management Fundamentals** — 5 classes
  - 1.1 Defining Inventory Management and Its Importance
  - 1.2 Identifying Key Components of Inventory Systems
  - 1.3 Exploring Inventory Management Techniques
  - 1.4 Analyzing Inventory Metrics and KPIs
  - 1.5 Applying Inventory Management in Retail Scenarios
- **2 Techniques for Effective Stock Control** — 5 classes
  - 2.1 Understanding Key Principles of Stock Control
  - 2.2 Identifying the Role of Stock Levels in Operations

- **1 Understanding Retail Inventory Essentials** — 5 classes
  - 1.1 Exploring the Basics of Retail Inventory
  - 1.2 Identifying Key Components of Inventory Management
  - 1.3 Analyzing Inventory Turnover Rates and Their Impact
  - 1.4 Evaluating Supply Chain Influences on Inventory Levels
  - 1.5 Developing Basic Inventory Optimization Techniques
- **2 Analyzing Inventory Turnover and Stock Levels** — 5 classes
  - 2.1 Understanding Inventory Turnover: Key Concepts and Formulas
  - 2.2 Analyzing Stock Levels: Methods to Assess and Optimize
  - 2.3 Evaluating Inventory Turnover Ratios for Business Performance
  - 2.4 Comparing Different Inventory Strategies: Benefits and Drawbacks
  - 2.5 Implementing Adjustments: Techniques to Enhance Inventory Turnover
- **3 Strategic Replenishment Planning** — 5 classes
  - 3.1 Understanding the Basics of Strategic Replenishment
  - 3.2 Analyzing Demand Patterns for Effective Replenishment
  - 3.3 Exploring Replenishment Techniques and Models
  - 3.4 Implementing Automated Replenishment Systems
  - 3.5 Evaluating and Optimizing Replenishment Strategies
- **4 Technology and Innovation in Inventory Management** — 5 classes
  - 4.1 Exploring New Technologies in Inventory Management
  - 4.2 Understanding Automation and Robotics in Warehouses
  - 4.3 Leveraging Data Analytics for Inventory Optimization
  - 4.4 Implementing RFID and IoT for Real-Time Tracking
  - 4.5 Applying AI and Machine Learning to Predict Inventory Needs
- **1 Understanding Inventory Fundamentals** — 6 classes
  - 1.1 Defining Inventory and Its Importance
  - 1.2 Exploring Types of Inventory in Omnichannel Operations
  - 1.3 Analyzing Inventory Costs and Impacts
  - 1.4 Comparing Inventory Valuation Methods
  - 1.5 Understanding Inventory Turnover Ratios
  - 1.6 Applying Basic Inventory Control Techniques
- **2 Inventory Recording and Tracking Techniques** — 5 classes
  - 2.1 Understanding Inventory Recording Systems
  - 2.2 Exploring Barcode and RFID Technologies
  - 2.3 Implementing Real-time Inventory Tracking
  - 2.4 Analyzing Stock Level Reports
  - 2.5 Ensuring Accuracy through Inventory Audits
- **3 Demand Forecasting and Replenishment Strategies** — 5 classes
  - 3.1 Understanding Demand Patterns
  - 3.2 Inventory Turnover Ratio Analysis
  - 3.3 Seasonal Demand Adjustments
  - 3.4 Safety Stock Calculation Techniques
  - 3.5 Collaboration with Suppliers
- **4 Addressing Inventory Challenges and Loss Prevention** — 5 classes
  - 4.1 Understanding Inventory Shrinkage
  - 4.2 Techniques for Effective Stock Audits
  - 4.3 Implementing Inventory Control Systems
  - 4.4 Strategies for Loss Prevention
  - 4.5 Analyzing Inventory Turnover Rates
- **5 Inventory Management and Safety Procedures** — 5 classes
  - 5.1 Introduction to Food Safety Standards
  - 5.2 Health and Safety Regulations in Retail
  - 5.3 Personal Hygiene Practices for Retail Staff
  - 5.4 Implementing Safety Procedures in Retail
  - 5.5 Monitoring Compliance with Safety Standards
- **2 Inventory Demand Forecasting Techniques** — 6 classes
  - 2.1 Understanding Inventory Demand Forecasting
  - 2.2 Analyzing Historical Sales Data for Forecasting
  - 2.3 Exploring Qualitative Forecasting Methods
  - 2.4 Applying Quantitative Forecasting Techniques
  - 2.5 Identifying Factors Influencing Inventory Demand
  - 2.6 Implementing Inventory Forecasting Strategies
- **3 Optimizing Stock Levels and Turnover** — 6 classes
  - 3.1 Understanding Stock Level Basics

2 **Pricing, Margin and Range Planning** 22 chapters · 126 classes **100 marks**

- **1 Understanding Costs and Prices** — 4 classes
  - 1.1 What Cost Price Includes
  - 1.2 What Selling Price Means
  - 1.3 Tax, Discounts and the Final Price
  - 1.4 Reading a Supplier Price List
- **2 Simple Margin and Markup Sums** — 4 classes
  - 2.1 Working Out Profit on One Item
  - 2.2 Margin Percentage Made Easy
  - 2.3 Markup Versus Margin
  - 2.4 Practising With Real Shop Examples
- **3 Setting Prices That Work** — 4 classes
  - 3.1 Comparing Prices With Competitors
  - 3.2 Price Points Customers Like
  - 3.3 Offers, Bundles and Sale Pricing
  - 3.4 Protecting Profit During a Sale
- **1 Learning From Sales Clues** — 4 classes
  - 1.1 Best Sellers and Slow Sellers
  - 1.2 Spotting Sales Patterns Over Weeks
  - 1.3 Stock Left on Shelf and What It Tells Us
  - 1.4 Using a Simple Sales Chart
- **2 Listening to Customers** — 4 classes
  - 2.1 Gathering Feedback in Store
  - 2.2 Reading Online Reviews and Ratings
  - 2.3 Customer Requests and Missing Products
  - 2.4 Understanding Different Customer Groups
- **3 Making Smart Product Choices** — 4 classes
  - 3.1 Spotting Trends Without Overbuying
  - 3.2 Testing a New Product in a Few Stores
  - 3.3 How Much to Order and When
  - 3.4 Avoiding Stock-Outs and Excess Stock
- **1 How Shelf Space Is Shared** — 4 classes
  - 1.1 Store Layout and Customer Walking Paths
  - 1.2 Eye-Level and Other Shelf Zones
  - 1.3 Giving Space to Fast Sellers
  - 1.4 Planograms: A Simple Shelf Plan
- **2 Displays That Help Products Sell** — 4 classes
  - 2.1 Grouping Related Products Together
  - 2.2 End Caps, Counters and Window Displays
  - 2.3 Signs, Colours and Lighting Basics
  - 2.4 Keeping Shelves Full and Tidy
- **3 Checking That Displays Work** — 4 classes
  - 3.1 Walking the Shop Floor With a Checklist
  - 3.2 Comparing Sales Before and After a Change
  - 3.3 Moving Slow Products to Better Spots
  - 3.4 Clearing Old Stock and Making Room
- **1 Understanding Category Management Fundamentals** — 6 classes
  - 1.1 Define the Role of Category Management in Retail
  - 1.2 Identify Key Objectives of Category Management
  - 1.3 Explore the Category Management Process
  - 1.4 Analyze Consumer Behavior and Its Impact on Categories
  - 1.5 Differentiate Between Category Roles and Strategies
  - 1.6 Apply Category Management Principles to Real-World Scenarios
- **2 Analyzing Consumer Behavior and Market Trends** — 6 classes
  - 2.1 Understanding Consumer Behavior Patterns
  - 2.2 Interpreting Market Trend Data
  - 2.3 Identifying Key Consumer Segments
  - 2.4 Analyzing Competitor Strategies
  - 2.5 Linking Consumer Insights to Retail Strategies
  - 2.6 Applying Trends to Enhance Category Management
- **3 Developing Category Strategies and Tactics** — 6 classes
  - 3.1 Understanding Category Roles and Strategies
  - 3.2 Analyzing Market Trends for Effective Strategy Development
  - 3.3 Aligning Category Strategies with Business Objectives
  - 3.4 Crafting Strategic Category Tactics
  - 3.5 Evaluating Competitor Strategies and Tactics
  - 3.6 Implementing and Monitoring Category Strategies
- **4 Optimizing Assortment Planning and Product Selection** — 6 classes
  - 4.1 Understanding Assortment Planning Basics
  - 4.2 Identifying Key Product Selection Criteria
  - 4.3 Analyzing Consumer Demand Patterns
  - 4.4 Using Data to Drive Product Selection
  - 4.5 Balancing Variety and Depth in Product Assortments
  - 4.6 Implementing Effective Assortment Strategies
- **5 Measuring and Evaluating Category Performance** — 6 classes
  - 5.1 Understanding Key Performance Indicators in Category Management
  - 5.2 Analyzing Sales and Profitability Metrics
  - 5.3 Evaluating Market Share and Growth Trends
  - 5.4 Assessing Inventory and Stock Turnover
  - 5.5 Developing Performance Benchmarking Strategies
  - 5.6 Implementing Continuous Improvement in Category Management
- **1 Introduction to Assortment and Stock Management** — 6 classes
  - 1.1 Understanding Assortment and Stock Concepts
  - 1.2 Identifying Key Components of Stock Management
  - 1.3 Exploring Role of Assortment in Retail Buying
  - 1.4 Analyzing Demand Patterns and Stock Levels
  - 1.5 Evaluating Assortment Strategies for Retail Success
  - 1.6 Implementing Basic Practices in Stock Management
- **2 Demand Forecasting and Inventory Planning** — 6 classes
  - 2.1 Understanding Demand Forecasting Concepts
  - 2.2 Exploring Data Sources for Retail Forecasting
  - 2.3 Analyzing Seasonal and Trend Patterns in Sales
  - 2.4 Implementing Statistical Models for Forecasting
  - 2.5 Assessing Forecast Accuracy and Adjustments
  - 2.6 Developing Inventory Plans Based on Forecasts
- **3 Assortment Optimization Techniques** — 6 classes
  - 3.1 Understanding Assortment Optimization
  - 3.2 Analyzing Consumer Demand Patterns
  - 3.3 Identifying Key Assortment Drivers
  - 3.4 Utilizing Data to Refine Product Selection
  - 3.5 Implementing Assortment Mix Strategies
  - 3.6 Evaluating Assortment Performance
- **4 Supplier Relationships and Procurement Strategies** — 6 classes
  - 4.1 Supplier Selection Criteria
  - 4.2 Negotiation Techniques with Suppliers
  - 4.3 Building Long-Term Supplier Relationships
  - 4.4 Inventory Management Best Practices
  - 4.5 Evaluating Supplier Performance
  - 4.6 Sustainable Sourcing Strategies
- **5 Performance Analysis and Stock Turnover** — 6 classes
  - 5.1 Understanding Stock Turnover Ratio
  - 5.2 Factors Affecting Stock Turnover
  - 5.3 Strategies for Improving Stock Turnover
  - 5.4 Analyzing Sales Patterns
  - 5.5 Inventory Management Techniques
  - 5.6 Setting Stock Turnover Goals
- **20 Markdowns, Clearance and Promotional Pricing** — 10 classes
  - 20.1 Why Stock Needs Marking Down
  - 20.2 Reasons for Slow Moving Stock
  - 20.3 Timing a Markdown Correctly
  - 20.4 Calculating Markdown Percent and Value
  - 20.5 Effect of Markdown on Margin
  - 20.6 Planning a Clearance Sale
  - 20.7 Buy One Get One and Bundle Offers

3 **Retail Analytics and Sales Forecasting** 59 chapters · 350 classes **100 marks**

- **1 Understanding Customer Data and Its Relevance in Retail** — 6 classes
  - 1.1 Discovering the Importance of Customer Data in Retail
  - 1.2 Identifying Key Types of Customer Data
  - 1.3 Monitoring Customer Account Performance
  - 1.4 Understanding Customer Behavior Through Data Analysis
  - 1.5 Employing CRM Systems to Enhance Data Utilization
  - 1.6 Applying Customer Data Strategies to Boost Retail Sales
- **2 Data Collection Techniques and Tools in Retail Environments** — 6 classes
  - 2.1 Understanding Customer Data Needs in Retail
  - 2.2 Identifying Key Data Collection Points
  - 2.3 Exploring Data Collection Tools and Technologies
  - 2.4 Applying Data Collection Techniques Effectively
  - 2.5 Analyzing Data Quality and Integrity
  - 2.6 Leveraging Collected Data to Enhance CRM
- **3 Analyzing Customer Data for Insights and Trends** — 6 classes
  - 3.1 Understanding Customer Data Sources
  - 3.2 Identifying Key Customer Metrics
  - 3.3 Visualizing Customer Data Effectively
  - 3.4 Assessing Risks in Customer Service
  - 3.5 Interpreting Customer Data for Business Insights
  - 3.6 Applying Data Analysis to Predict Trends
- **4 Implementing Customer Data Insights into CRM Strategies** — 6 classes
  - 4.1 Understanding Customer Data Insights
  - 4.2 Analyzing Patterns and Trends in Customer Data
  - 4.3 Translating Data Insights into CRM Objectives
  - 4.4 Designing CRM Strategies Based on Data Insights
  - 4.5 Implementing Data-Driven Tactics in CRM Systems
  - 4.6 Evaluating the Effectiveness of CRM Data Integration
- **5 Ethical Considerations and Compliance in Customer Data Management** — 6 classes
  - 5.1 Understanding Ethical Principles in Data Management
  - 5.2 Recognizing the Importance of Data Privacy
  - 5.3 Exploring Legal Frameworks for Customer Data
  - 5.4 Identifying Key Compliance Regulations in Data Handling
  - 5.5 Implementing Ethical Data Practices in CRM
  - 5.6 Evaluating Compliance Strategies in Customer Data Management
- **1 Fundamentals of Retail Data Analysis** — 6 classes
  - 1.1 Understanding Retail Data Types and Sources
  - 1.2 Exploring Key Metrics in Retail Performance
  - 1.3 Analyzing Customer Demographics and Behavior Data
  - 1.4 Interpreting Sales and Inventory Data Patterns
  - 1.5 Applying Data Visualization Techniques in Retail
  - 1.6 Generating Insights for Strategic Retail Decisions
- **2 Understanding Customer Behaviour Through Data** — 6 classes
  - 2.1 Analyzing Customer Demographics for Insights
  - 2.2 Interpreting Buying Patterns and Trends
  - 2.3 Identifying Behavioral Segments with Data
  - 2.4 Applying Predictive Analytics in Retail
  - 2.5 Utilizing Customer Feedback for Data-Driven Decisions
  - 2.6 Implementing Strategies from Data Insights
- **3 Advanced Analytical Methods for Retail Insights** — 6 classes
  - 3.1 Understanding Advanced Retail Data Sets
  - 3.2 Applying Statistical Techniques to Retail Data
  - 3.3 Exploring Predictive Analytics for Retail Trends
  - 3.4 Utilizing Machine Learning for Customer Insights
  - 3.5 Interpreting Data Visualization in Retail Contexts
  - 3.6 Implementing Data-Driven Strategies in Retail Leadership
- **4 Data-Driven Decision Making in Retail** — 6 classes
  - 4.1 Understanding the Role of Data in Retail Decision Making
  - 4.2 Identifying Key Retail Metrics and KPIs
  - 4.3 Collecting and Organizing Retail Data Effectively
  - 4.4 Analyzing Customer Behavior Through Data Patterns
- **2 Data Analysis Techniques for Retail Insights** — 6 classes
  - 2.1 Understanding Retail Data Sources
  - 2.2 Exploring Data Collection Methods
  - 2.3 Analyzing Consumer Buying Patterns
  - 2.4 Identifying Key Market Trends
  - 2.5 Applying Statistical Tools for Insights
  - 2.6 Interpreting Data for Strategic Decisions
- **3 Identifying Consumer Trends in the Retail Market** — 6 classes
  - 3.1 Understanding Retail Consumer Behavior Dynamics
  - 3.2 Analyzing Current Retail Market Indicators
  - 3.3 Exploring Methods to Identify Emerging Trends
  - 3.4 Utilizing Data Analytics for Trend Forecasting
  - 3.5 Leveraging Social Media Insights in Retail
  - 3.6 Applying Trend Analysis to Retail Strategy Development
- **4 Forecasting Techniques for Retail Demand** — 6 classes
  - 4.1 Explore the Basics of Retail Demand Forecasting
  - 4.2 Understand Key Variables Influencing Retail Demand
  - 4.3 Analyze Historical Sales Data for Trends
  - 4.4 Apply Quantitative Forecasting Models
  - 4.5 Utilize Qualitative Methods in Demand Prediction
  - 4.6 Implement Integrated Forecasting Techniques in Retail
- **5 Strategic Implementation of Trend Forecasts** — 6 classes
  - 5.1 Understanding Trend Forecasting Models
  - 5.2 Analyzing Market Conditions for Strategic Insights
  - 5.3 Identifying Key Indicators for Future Trends
  - 5.4 Integrating Forecasts into Strategic Planning
  - 5.5 Adapting Strategies for Market Changes
  - 5.6 Evaluating the Impact of Trend Forecast Implementation
- **1 Customer Behavior Analysis** — 6 classes
  - 1.1 Understanding Consumer Preferences
  - 1.2 Data-Driven Decision Making
  - 1.3 Segmentation of Retail Customers
  - 1.4 Predictive Analytics in Retail
  - 1.5 Customer Journey Mapping
  - 1.6 Feedback Analysis Techniques
- **2 Inventory Management Analytics** — 6 classes
  - 2.1 Stock Level Optimization
  - 2.2 Demand Forecasting Methods
  - 2.3 Turnover Rate Analysis
  - 2.4 Supplier Performance Metrics
  - 2.5 Inventory Cost Control
  - 2.6 Automated Inventory Systems
- **3 Sales Performance Metrics** — 6 classes
  - 3.1 Key Performance Indicators
  - 3.2 Sales Conversion Analysis
  - 3.3 Revenue Growth Strategies
  - 3.4 Sales Team Productivity
  - 3.5 Market Share Analysis
  - 3.6 Competitive Sales Benchmarking
- **4 Digital Marketing Analytics** — 6 classes
  - 4.1 Social Media Impact Measurement
  - 4.2 SEO Performance Tracking
  - 4.3 Email Campaign Effectiveness
  - 4.4 Website Traffic Analysis
  - 4.5 Content Engagement Metrics
  - 4.6 Ad Spend ROI Evaluation
- **5 Supply Chain Analytics** — 6 classes
  - 5.1 Logistics Performance Metrics
  - 5.2 Supplier Risk Assessment
  - 5.3 Transportation Cost Analysis
  - 5.4 Supply Chain Optimization Techniques
  - 5.5 Inventory Replenishment Strategies
  - 5.6 Collaboration in Supply Chain
- **1 Utilizing Retail Analytics for Enhanced Decision Making** — 6 classes

4 **Merchandise Planning and Retail Supply Chain** 29 chapters · 170 classes **100 marks**

- **1 Understanding the Role of Strategic Merchandising in Retail** — 6 classes
  - 1.1 Defining Strategic Merchandising in Retail
  - 1.2 Identifying Key Components of Merchandising Strategy
  - 1.3 Analyzing Consumer Behavior and Its Impact on Merchandising
  - 1.4 Exploring the Role of Data in Retail Merchandising Decisions
  - 1.5 Integrating Merchandising with Marketing and Sales
  - 1.6 Applying Strategic Merchandising for Competitive Advantage
- **2 Market Analysis and Consumer Insights** — 6 classes
  - 2.1 Understanding Market Dynamics in Merchandising
  - 2.2 Identifying Key Consumer Segments
  - 2.3 Analyzing Consumer Behavior Patterns
  - 2.4 Techniques for Gathering Consumer Insights
  - 2.5 Applying Data Analytics to Market Analysis
  - 2.6 Integrating Consumer Insights into Merchandising Strategy
- **3 Merchandise Planning and Budgeting Techniques** — 6 classes
  - 3.1 Understanding Merchandise Planning Foundations
  - 3.2 Analyzing Market Trends for Effective Planning
  - 3.3 Developing Merchandise Budgets: Key Principles
  - 3.4 Implementing Inventory Control and Allocation Techniques
  - 3.5 Evaluating Financial Performance in Merchandising
  - 3.6 Applying Integrated Planning and Budgeting Strategies
- **4 Implementing Merchandising Strategies Across Channels** — 6 classes
  - 4.1 Understanding Multi-Channel Retailing Dynamics
  - 4.2 Analyzing Consumer Behavior across Channel Platforms
  - 4.3 Integrating Cross-Channel Merchandising Strategies
  - 4.4 Optimizing Inventory Management for Omnichannel Success
  - 4.5 Implementing Effective Digital Merchandising Tactics
  - 4.6 Evaluating Channel Performance and Strategic Adjustments
- **5 Leveraging Technology and Innovation in Merchandising** — 6 classes
  - 5.1 Exploring the Impact of Technology on Merchandising
  - 5.2 Analyzing Digital Tools for Inventory Management
  - 5.3 Utilizing Data Analytics for Consumer Insights
  - 5.4 Integrating AI for Personalized Shopping Experiences
  - 5.5 Adopting Emerging Technologies in Merchandising
  - 5.6 Evaluating Innovation Strategies for Competitive Advantage
- **1 Understanding Merchandising Strategy Fundamentals** — 5 classes
  - 1.1 Exploring the Basics of Merchandising Strategy
  - 1.2 Analyzing Consumer Behavior in Retail Settings
  - 1.3 Developing a Strategic Merchandising Plan
  - 1.4 Identifying Key Visual Merchandising Elements
  - 1.5 Implementing Merchandising Strategies in Real-world Scenarios
- **2 Developing Comprehensive Merchandising Plans** — 5 classes
  - 2.1 Understanding Merchandising Goals and Objectives
  - 2.2 Analyzing Target Market Needs and Preferences
  - 2.3 Creating Effective Merchandising Strategies
  - 2.4 Designing Detailed Merchandising Plans
  - 2.5 Implementing and Evaluating Merchandising Plans
- **3 Visual Merchandising Techniques and Execution** — 5 classes
  - 3.1 Exploring the Principles of Visual Merchandising
  - 3.2 Understanding Color Theory in Retail Displays
  - 3.3 Designing Effective Product Arrangements
  - 3.4 Implementing Thematic Merchandising Concepts
  - 3.5 Evaluating Visual Merchandising Effectiveness
- **4 Evaluating Merchandising Performance and Adaptation** — 5 classes
  - 4.1 Understanding Key Performance Indicators in Merchandising
  - 4.2 Analyzing Sales Data to Evaluate Merchandising Success
  - 4.3 Identifying Trends and Patterns in Customer Engagement
  - 4.4 Adapting Merchandising Strategies Based on Feedback
  - 4.5 Implementing Continuous Improvement in Merchandising Practices
- **1 Consumer Behavior Analysis** — 6 classes

- **2 Key Trends and Innovations in Supply Chain Management** — 6 classes
  - 2.1 Understanding Current Global Supply Chain Dynamics
  - 2.2 Exploring Technological Innovations in Supply Chains
  - 2.3 Analyzing the Impact of Big Data and Analytics
  - 2.4 Evaluating Sustainable Practices in Supply Chains
  - 2.5 Assessing the Role of Automation and Robotics
  - 2.6 Applying Innovative Strategies to Enhance Supply Chain Resilience
- **3 Sustainability and Ethical Practices in Global Retail Supply Chains** — 6 classes
  - 3.1 Understanding Sustainability in Global Retail Supply Chains
  - 3.2 Exploring Ethical Practices in Global Retail Contexts
  - 3.3 Analyzing the Impact of Sustainable Practices on Supply Chains
  - 3.4 Evaluating Ethical Standards and Certifications in Retail
  - 3.5 Implementing Sustainability Strategies in Retail Supply Chains
  - 3.6 Case Studies on Ethical Practices in Global Retailers
- **4 Risk Management and Resilience in Global Supply Chains** — 6 classes
  - 4.1 Understanding Supply Chain Risks
  - 4.2 Identifying Vulnerabilities in Global Networks
  - 4.3 Analyzing Risk Mitigation Strategies
  - 4.4 Developing Supply Chain Resilience
  - 4.5 Implementing Continuity Planning in Supply Chains
  - 4.6 Evaluating Resilience through Case Studies
- **5 Strategic Decision-Making for Optimizing Retail Supply Chains** — 6 classes
  - 5.1 Understanding Retail Supply Chain Dynamics
  - 5.2 Analyzing Key Decision Factors in Retail Supply Chains
  - 5.3 Evaluating Global Trends in Supply Chain Management
  - 5.4 Developing Strategies for Supply Chain Optimization
  - 5.5 Implementing Decision-Making Models in Retail
  - 5.6 Assessing the Impact of Technology on Supply Chain Decisions
- **1 Foundations of Supply Chain Modelling** — 6 classes
  - 1.1 Understanding the Basics of Supply Chain Modelling
  - 1.2 Exploring Key Components of Supply Chain Models
  - 1.3 Analyzing the Role of Data in Supply Chain Modelling
  - 1.4 Examining Common Tools and Software for Modelling
  - 1.5 Applying Quantitative Techniques to Model Supply Chains
  - 1.6 Evaluating Model Efficiency and Accuracy in Supply Chains
- **2 Data Analytics and Forecasting Techniques** — 6 classes
  - 2.1 Understanding the Role of Data Analytics in Supply Chain Modelling
  - 2.2 Exploring Data Sources and Collection Methods for Forecasting
  - 2.3 Analyzing Historical Data to Identify Trends and Patterns
  - 2.4 Applying Statistical Techniques for Accurate Forecasting
  - 2.5 Leveraging Machine Learning for Predictive Supply Chain Insights
  - 2.6 Evaluating and Optimizing Forecasting Models in Supply Chains
- **3 Inventory Optimization and Management** — 6 classes
  - 3.1 Understanding Inventory Optimization Objectives
  - 3.2 Analyzing Demand Forecasting Techniques
  - 3.3 Implementing Safety Stock Calculations
  - 3.4 Exploring Economic Order Quantity Models
  - 3.5 Evaluating Just-in-Time Inventory Strategies
  - 3.6 Applying ABC Analysis for Inventory Prioritization
- **4 Collaborative Planning and Network Design** — 6 classes
  - 4.1 Understanding Collaborative Planning in Supply Chains
  - 4.2 Exploring the Benefits of Network Design
  - 4.3 Analyzing Stakeholder Roles in Collaborative Models
  - 4.4 Evaluating Tools for Effective Network Design
  - 4.5 Case Studies: Successful Collaborative Planning Implementation
  - 4.6 Applying Network Design Principles in Global Retail
- **5 Risk Management and Resilience Building** — 6 classes
  - 5.1 Understanding Supply Chain Risks
  - 5.2 Identifying Vulnerabilities in Global Supply Networks
  - 5.3 Analyzing Risk Impact on Supply Chain Operations
  - 5.4 Developing Strategies for Risk Mitigation
